ISO 9001 : 2015 Quality Certified

## AUDITING & SIX SIGMA COURSES

## ABOUT US :

We take pleasure in introducing ourselves as an Engineering & Management Consulting Firm, with diversified experience in O & M (Operations & Maintenance), Projects, Engineering Equipment Installation, Commissioning, Systems Management and Handling on Projects in India.

We undertake complete turnkey industrial and engineering projects right from start up to completion to handover in all engineering & management disciplines, including training and coaching to staff, personnel on all business functionality.

We undertake to complete ISO registration and certification procedures including all documentation and registration procedures for ISO 9001:2015 QMS, ISO 14001 EMS, ISO 18001 OHSAS, ISO 27001 ISMS, TS16949 international standards.

We also undertake CE marking Certification Process for facilitating Exports of your Products (especially to the European Union - EU).

We also conduct "Reliability Engineering & Life Cycle Studies" of products, right from Inception to complete Life Cycle realization on analysis of products, components and sub-parts/assemblies with a Primary Focus on "RAMS" i.e. Reliability, Availability,

Maintainability & Safety of Equipment/ Products.

This is a professional training and consulting organization in the quality and reliability area touching almost all the sectors of the industry may it be manufacturing or service sector. We offer professional certifications in operations supply chain quality reliability safety and all ISO standards prescribed by internationally recognized organizations like ISO, ASQ, AIAG, SIAM and alike.

## MISSION :

To make participants Professionally & technically Certified by Analyzing their skills, education and background. To nurture their technical and managerial abilities in the right Direction to make them place in the right place at the right time .

## AIMS ENGINEERING conducts following Short Term Professional Industrial Programs:

1. Reliability Engineering
2. Statistical Quality Control / Statistical Process Control
3. Industrial Automation & Robotics
4. Metrology & Quality Control
5. Automotive Quality standards tools & TS 16949 standards training
6. MSA - Measurement Systems Analysis
7. FMEA - Failure Modes Effects Analysis
8. APQP - Advanced Product Quality Planning
9. PPAP - Production Part Approval Process
10. Internal Auditors Course in ISO 9001 Quality Management Standards
11. Internal Auditors Course in ISO 14001 Environmental standards
12. Internal Auditors Course in ISO 18001 OHSAS standards
13. Internal Auditors Course in ISO TS 16949 Automotive Quality standards with core tools .
14. Six Sigma Black Belt Certification Course Certified by ISSI Germany
15. Six Sigma Green Belt Certification Course Certified by ISSI Germany
16. Six Sigma Yellow belt course certified by ISSI Germany
